Experiment I

Every day, we soak the sample of Steel Wire Armored Cable and **STAINLESS TAPED CABLE** in the water. After that, expose it in the air. The result is in picture below.

Steel Wire Armored Cable
after 2 week exposed in the air.
Rust occurred at the armor.

STAINLESS TAPED CABLE
after 2 week exposed in the air.
No rust occurred.

Experiment II

We hang 200 g. weights at the end of wire (See Picture). Please focus on the bending of wire.

STAINLESS TAPED CABLE
is easier to bend than Steel Wire Armored Cable.
